The Environmental Problems found along with Photographs

survey is to find out condition situation and value survey is to study in order of collect data for analysis of same aspect of graph and area.

Basically the types of survey are broadly categorized into two. According to instrumentation, include the questions and the interview.

According to instrumentation:

In the survey research the instruments that are utilized can be either a question and an interview.

1) Questionnaires:-

Typically questionnaires have been developed over the years. Today questionnaires are utilized in various ways. These methods according to how they are given these methods include the self administered the group administered the household door-to-door and

three the self administered survey method is often used by researchers nowadays the self administered question are self shown as the main reach to mail surveys how gave.

Advantages:-

I deal for asking closed ended question Effective for market consumer research

Disadvantages:-

Limit the research understanding of the respondents answer readers. are survey questionnaire

Interview:- Between the two broad types of surveys interviews are made for personal and probing questions.

According to span of time involved:-

The span of time needed to complete the survey and bring us to different types of

Cross, Serial Survey:-

Collecting information from the respondents at a single period of time period

Survey's cross sectional variable.

Air Pollution:-

Gases such as CO, NH₃, SO₂, CO₂, NO, H₂, are continuously released into the atmosphere and making it toxic & poisonous.

Another classification of air pollution can be either primary are emitted directly the environment.

- 1) carbon monoxide
- 2) nitrogen oxide
- 3) Hydro carbons
- 4) sulphur oxides.

mining operation:- mining is a process where in minerals below the Earth are extracted using large part that process test chemicals are released in the air causing massive air pollution.

water Pollution:-

the garbage produces by house hold in the form, of paper, rubber, glass, plastic it collected deposited in to the sea in some countries the items take 2 to 200 years to decompose when some items enter the

need of swatch Bharat abhiyan:-

swatch Bharat mission is very necessary to green continuously in india until it get its goal it is very essential for the people in india to really get the feeling of physically metel social intela will bring it is to move living status advance in the india in means which can be started by bringing all over cleatiness same paints providing the need of swach Bharat abhiyana in india.

It is really very essential to eliminate the open defination in india as well as making available toilets. needed in india to convert in sanitary cleaniness programme in the urban areas have been planed to completed over five years till 2019. The caste of programme or set like Rs, 7, 336, core solid wese Rs 4, 163 core and an individual house hold toilets etc ----- Programme which been to completed converting into sanitary toilets in to flush to make rural areas clean however now it has been restated into swatch

Bharat mission. the company is aimed to make rural areas free cost has been stimulated is one lakh thirty four thousand crore rupees for construction ' crore' lakh toilets in the community Panchayat samiti and Zilla Parishad following the instructions of swach.

Bharat Abiyan:-

- * To improve quality of life of people living in the rural areas.
- * motivate the people to maintain sanitation in rural areas to complete the vision of swach Bharat by 2019
- * To Promote Ecologically safe sustainable swach Bharat is an improvement in the service tax by 5% on all the services in India, It is started by the ministry to collect some bound from each is every Indian citizen for the swach Bharat in order to make in successful comparison is order to make it Every one has to play Extra we can say swach Bharat a nice welcome step to the clean

and green india till 2019 As we all heard about the most famous phrase clean lives is next to godness we can say survey that clean india campaign will really burning good lines all over the country in few years, so that clean country in few years, so that cleanliness activities to wards welcomed the goodness have been started not need to be ended but started.

Swatch Bharat Abhiyan:-

- * To eradicate the system of open defecation in India.
- * To convert the India in Sanitary to Power line toilets
- * To remove the system of manual scavenging
- * To make people onward of healthy sanitation and Public health in order to generate Public.
- * To build up the local bodies in order to design and operate an system to cleanliness.
- * To completely start the scientific Processal disposal refuse and releasing the municipal solid waste.
- * To provide required Environment for the provide sectors to get in the capital for the operation.

Swatch Bhamath Pledge:-

manatha Gandhi dream of an India which was not only free but also clean developed Gandhi's dream for mother India by now it is our duty to serve mother India keeping the country neat clean I take this pledge that I will remain committed to wards the cleanliness devote time for this country. I will voluntary mark clean lines I will neither litter nor other litter. It will initiate the quest for cleanliness with my self.

my family, my village my wife place. I believe that the countries of the world that offer clean so because the happen.

Swatch Bhamath Campaign:-

- 1) The mission is estimated to cost around crores to which 623 crores.
- 2) The goal also includes the Elimination of open defecation conversion of in sanitary toilets.
- 3) to Power flush toilets of ghatory toilets of manual solid waste.

Environmental is and Report:-

Environmental Education in the formal school curriculum has been by two national policy documents the national curriculum frame work 2005 of the national council of education Research & training of the director of the supreme court response to a 1991 Petition by Shri - M. C. Mehta the supreme court gave its order documents 200 the key document that forwarded this recommendation that an Environment is be added to all subject from standard II to XII the supreme court of India in December 2010 has its the supreme court of Environment Education the NCERT suggest is the following method of mention of. EE

(Environment Education)

Class	Mode of transaction
I & II	Thorough Activities
III & IV	Environment studies
V & VI	Intusion model
VII & XII	Project base studies

The national council of education training & Research NCERT has in least two decades not only opened books teachers guides in correlating Environment but prepared. considering the recive of Environment Education as per national curriculum programme with 2005. The main aim generation and Problems associated with it would also the future classification of the Earth with the realist knowledge of the of Environment natural and also the problems.

The use of environmental educational focus. on forest ownership active participation may have the goals of the instrumental characteristics in eleven model have been discussed below.
